Your Single Source for Metal Roofing, Wall Panels, Ceilings, and Accessories

ATAS International, Inc. offers energy efficient building envelope technology products that are coated with cool pigment paint that reflects infrared radiation, thus allowing the color to appear the same but keeping the material cooler. ATAS products may contribute to LEED® credits, be rated by the CCRC® and/or be ENERGY STAR® qualified. Please visit www.atas.com for more information.

The KYNAR 500® PVDF or HYLAR 5000® PVDF finish carries a limited warranty against fading and chalking. ATAS coated materials are non-staining and virtually maintenance free. Any surface residue is easily removed with conventional cleaning solutions or detergents. Minor scratches may be touched up with an air dry touch-up coating of the same color, available from ATAS. Visit www.atas.com for specialty trend colors.
