

Typical Sizes	Height
3" to 2"	8"
4" to 3"	8"
5" to 3"	8"
5" to 4"	8"
6" to 3"	8"
6" to 4"	8"
6" to 5"	8"
8" to 3"	8"
8" to 4"	8"
8" to 6"	8"
Other sizes available	

Top View / Bottom View

The example to the left shows a 6" (A) to 4" (B) adapter. That dimension change is achieved over 6" in height for all adapters, however, all are extended by 2" (1" in each direction). This allows the adapter to receive a downspout and be inserted into another (receive a 6" and be inserted into a 4" in this example). Both ends can be field trimmed/bent as necessary.
